Odlukom Senata Univerziteta u Istočnom Sarajevu broj 01-C-326-XXIII/21 od 28.10.2021. godine odobreno je da se udžbenik *English Language for Electrical Engineering 1: General Concepts* objavi kao univerzitetsko izdanje.

Table of Contents

PREFACE	13
PREDGOVOR.....	14
UNIT 1	15
A BEGINNER'S GUIDE TO ELECTRICAL ENGINEERING	15
What is Electrical Engineering?	15
What does an electrical engineer do?.....	15
Career Options	16
Exercises.....	20
1. Answer the following questions.	20
2. Match the names with the inventions.....	20
3. Create the word families for the following terms.....	20
4. Complete the text with the given words and expressions.	21
5. Match the career options (professions) with the descriptions.....	22
6. Modification of nouns.....	24
7. Write the descriptions of the modified nouns from the table.	25
8. Writing.....	25
BASIC WORD ORDER IN ENGLISH SENTENCES (1).....	26
Statements	26
Expressions of manner, place, time and frequency in sentences	26
PRESENT SIMPLE TENSE AND PRESENT CONTINUOUS TENSE.....	28
Present simple tense	28
Present continuous tense	29
Non-action verbs	30
UNIT 2	32
ELECTRICAL LAWS AND THEOREMS	32
Ohms Law.....	32
Laws of Electromagnetic Induction.....	32
Faraday's laws of Electromagnetic Induction	32
Lenz's law	32
Fleming's Right-hand rule	32
Fleming's left-hand rule.....	32
DC Circuit Theory Theorems.....	32
Kirchhoff's Laws	32
Superposition Theorem.....	33
Thevenin's Theorem	33
Norton's Theorem.....	33
Maximum Power Transfer Theorem.....	33
Magnetic Circuits	33

Screw rule.....	33
Exercises.....	34
1. Answer the following questions	34
2. Complete the text with the given words and expressions.....	34
3. Match the terms with their definitions.....	35
4. Rearrange the sentence parts to get correct sentences.....	35
BASIC WORD ORDER IN ENGLISH SENTENCES (2).....	37
Questions.....	37
PAST SIMPLE TENSE AND PAST CONTINUOUS TENSE	38
Past simple tense	38
Past continuous tense	39
UNIT 3	41
BRANCHES OF ELECTRICAL ENGINEERING.....	41
What is Power Engineering	41
What is Control Engineering	41
What is Electronics Engineering.....	42
What is Computer Engineering.....	42
What is Software Engineering.....	43
What is Telecommunications Engineering	43
Exercises.....	44
1. Answer the following questions	44
2. Match the type of engineering with the responsibilities and career options.....	45
3. Complete the text with the given words and expressions.....	46
4. Write the descriptions of the modified nouns from the table.....	47
5. Create the word families for the following terms.....	47
PRESENT PERFECT TENSE.....	48
Present perfect simple tense.....	48
Present perfect simple tense vs past simple tense.....	49
Present perfect simple tense vs present simple tense.....	49
Present perfect continuous tense	50
Present perfect simple tense vs present perfect continuous tense.....	50
PAST PERFECT TENSE	51
Past perfect simple tense.....	51
Past perfect tense vs present perfect simple tense.....	51
Past perfect tense vs past simple tense.....	52
Past perfect in time clauses.....	53
Past perfect continuous tense.....	53
Past perfect continuous tense vs present perfect continuous tense.....	53

Past perfect simple tense vs past perfect continuous tense.....	54
UNIT 4	55
THE HISTORY OF THE SMARTPHONE.....	55
Exercises.....	58
1. Answer the following questions.	58
2. Match the smartphones with their key characteristics and operating systems.....	58
3. Complete the text with the given words and expressions.	59
4. Explain/describe the following terms and expression, on the basis of their use in the text.	60
EXPRESSING FUTURE.....	61
Future simple tense - will.....	61
Be going to	61
Present tenses for future	62
Future continuous tense.....	63
Future continuous tense vs present continuous tense.....	63
Future simple tense vs future continuous tense	64
Future perfect simple tense.....	64
Future perfect continuous tense	65
Future perfect simple tense vs future perfect continuous tense.....	65
UNIT 5	66
THE IMPORTANCE OF COMPUTER TECHNOLOGY IN YOUR ENGINEERING CAREER.....	66
Computer Technology.....	66
Learn CAD software	66
Become familiar with Product Lifestyle Management	66
Gain a working knowledge of other science and technology applications	66
Exercises.....	68
1. Answer the following questions.	68
2. Write the descriptions of the modified nouns from the table.	68
3. Complete the text with the given words and expressions.	68
4. Create the word families for the following terms.....	69
5. Explain/describe the following terms and expressions, on the basis of their use in the text.	70
NOUNS.....	71
Types of nouns	71
English plural nouns.....	71
Regular plurals	71
Irregular plurals	73

Possessive form of nouns	76
Functions of the possessive	76
UNIT 6	78
A BRIEF HISTORY OF AUTOMATION	78
Industrial Revolution in the History of Automation.....	78
Waterwheel.....	78
Lathe.....	78
Post WWI Automation	79
Exercises.....	80
1. Answer the following questions	80
2. Complete the text with the given words and expressions.	80
3. Write the descriptions of the modified nouns from the table.	81
4. Rearrange the sentence parts to get correct sentences.	82
5. Create the word families for the following terms.....	82
6. Explain/describe the following terms and expressions, on the basis of their use in the text.	83
PRONOUNS.....	84
Subject pronouns	84
Object pronouns	84
Possessive adjectives (determiners)	85
Possessive pronouns	85
Reflexive and intensive pronouns.....	85
Indefinite pronouns	86
Affirmative sentences.....	87
Negative sentences	87
Negative questions	88
UNIT 7	89
A HISTORY OF AUTOMATION: THE RISE OF ROBOTS AND AI.....	89
Early machines and concepts.....	89
Creation of robots	89
Three laws of robotics	90
First AI.....	90
Academic recognition.....	90
The 60s, 70s, and 80s	90
90s AI and automation software	91
The millennium.....	91
The present day	92
The future of automation.....	92
Exercises.....	93

1. Answer the following questions	93
2. Write the descriptions of the modified nouns from the table.	93
3. Complete the text with the given words and expressions.	94
4. Explain/describe the following terms and expressions, on the basis of their use in the text.	95
5. Match the names and terms with the years of invention and appropriate associations and descriptions. Write full sentences for each of them.	95
ARTICLES	96
Indefinite article.....	96
Definite article.....	97
Definite article with proper nouns	98
UNIT 8	101
COMPUTERS – THE BEGINNINGS.....	101
Short Summary of the History of Computers	101
Simple Computers.....	101
The Calculating Clock	101
ENIAC	101
The Dawn of the Microprocessor	101
The First PC	101
Evolution of Computers	102
Early Computing.....	102
Mechanical Information Processing.....	102
Computer Integration.....	102
Rise of the PC	103
Multimedia Culture.....	103
Mobile Revolution.....	103
Exercises.....	104
1. Answer the following questions	104
2. Write the descriptions of the modified nouns from the table.	105
3. Explain/describe the following terms and expressions, on the basis of their use in the text.	105
4. Create the word families for the following terms.....	105
5. Complete the text with the given words and expressions.	106
6. Write the descriptions of the modified nouns from the table.	107
ADJECTIVES	108
Functions of adjectives	108
Ordering of multiple adjectives.....	109
Comparative adjectives	109
Superlative adjectives	110

Forming of regular comparatives and superlatives	110
One syllable adjectives.....	110
Two syllable adjectives.....	110
Adjectives with three or more syllables	111
Irregular comparatives and superlatives.....	111
Comparison of equality	111
Countable nouns in comparison of equality	112
Uncountable nouns in comparison of equality	112
ADVERBS.....	112
Functions of adverbs	112
Ordering of multiple adverbs.....	113
Forming adverbs from adjectives	114
Comparative and superlative adverbs	115
UNIT 9	116
THE FIRST AND SECOND GENERATION OF COMPUTERS	116
Features of First-Generation Computers	116
Year Built.....	116
Electronics.....	116
Custom-Made, One-of-a-Kind.....	116
Cost.....	117
Features of Second-Generation Computers	117
Introduction of Transistors.....	117
Language Changes	117
Storage Advances	117
Utility Advancements	117
Exercises.....	119
1. Answer the following questions	119
2. Explain/describe the following terms and expressions, on the basis of their use in the text.	119
3. Write the descriptions of the modified nouns from the table.	120
4. Write the abbreviations in their full form.....	120
5. Complete the text with the given words and expressions.	120
6. Write the descriptions of the modified nouns from the table.	122
PREPOSITIONS	123
Prepositions of time.....	123
Prepositions of place	124
Other Prepositions	126
UNIT 10.....	128
WHAT IS DIGITAL TECHNOLOGY?	128

Digital Technology.....	128
History.....	128
Digital Devices.....	128
Digital Data Sources.....	128
DIFFERENT TYPES OF MICROCOMPUTERS.....	128
Types of Microcomputers.....	128
Desktop Microcomputer Definition	128
Types of Microcomputer.....	129
Alternate Definitions of Microcomputer	129
DIFFERENCE BETWEEN PLC & MICROPROCESSOR.....	129
Differences.....	129
Features	130
History.....	130
Applications	130
Fun Fact.....	130
Exercises.....	131
1. Answer the following questions	131
2. Explain/describe the following terms and expressions, on the basis of their use in the text.	131
3. Decide whether the statements refer to PLCs, microprocessors (MPs) or microcomputers (MCs).....	132
4. Complete the text with the given expressions.	133
5. Write the descriptions of the modified nouns from the table.	134
6. Rearrange the sentence parts to get correct sentences.	134
CONJUNCTIONS	135
Coordinating conjunctions.....	135
Correlative conjunctions.....	135
Subordinating conjunctions	135
<i>So</i> - coordinating or subordinating conjunction?	136
UNIT 11.....	137
AUGMENTED REALITY.....	137
What is augmented reality? 5 ways to explain	137
AR vs. VR.....	138
AR examples, beyond headsets and Hololens	138
AR use cases in the enterprise market.....	138
AR's growth prospects: What's next?	139
Exercises.....	140
1. Answer the following questions.	140
2. Write the descriptions of the modified nouns from the table.	140

3. Create the word families for the following terms.....	141
4. Explain/describe the following terms and expressions, on the basis of their use in the text	141
5. Complete the text with the given words and expressions.	141
6. Rearrange the sentence parts to get correct sentences.	142
UNIT 12.....	144
ACTIVE AND PASSIVE VOICE.....	144
Voice.....	144
Active Voice.....	144
Use of active voice.....	145
Passive Voice.....	145
How is the passive voice made?.....	145
Agentless passive voice	146
Negatives and questions	146
Use of the passive voice.....	146
The get-passive	147
Forms of passive.....	147
Passive voice of verbs with two objects.....	149
Verbs with prepositions in passive voice.....	149
UNIT 13.....	150
AUGMENTED INTELLIGENCE	150
Exercises.....	152
1. Answer the following questions.	152
2. Write the descriptions of the modified nouns from the table	152
3. Explain/describe the following terms and expressions, on the basis of their use in the text.	152
4. Complete the text with the given words and expressions.	153
5. Rearrange the sentence parts to get correct sentences.	154
UNIT 14.....	155
DIRECT AND INDIRECT SPEECH.....	155
Introduction	155
Pronouns	155
Verb tenses	156
Time and place.....	158
Reported questions.....	159
Reported commands, requests and advice	159
UNIT 15.....	161
ELECTRICAL ENGINEERING: THE 13 MOST INFLUENTIAL TRENDS	161
Smart Grids.....	161

Electrical Vehicles.....	161
Wireless Power Transfer	162
Wireless Wearable Tech	162
Artificial intelligence	162
Prefabricated products.....	163
Energy-saving lighting technologies.....	163
Automated client relationship and project management	163
The Internet of Things (IoT).....	163
Increased use of Drones.....	164
A boost in the implementation of sustainable energy.....	164
Energy storage and better batteries	164
Robotics	164
Exercises.....	165
1. Answer the following questions	165
2. Explain/describe the following terms and expressions, on the basis of their use in the text	165
3. Write the descriptions of the modified nouns from the table	166
4. Rearrange the sentence parts to get correct sentences	167
5. Complete the text with the given words and expressions.	168
APPENDIX 1	170
LIST OF IRREGULAR VERBS.....	170
APPENDIX 2	174
WORD FORMATION.....	174
Prefixes.....	174
Writing prefixes: hyphens	174
Common prefixes and examples	174
Suffixes	175
Suffixes: spelling	176
Common suffixes and examples	176
Noun suffixes.....	176
Adjective suffixes.....	177
Verb suffixes.....	177
Adverb suffixes.....	177
Conversion.....	177
Compounding	178
Compound nouns	178
Compound adjectives	178
Compound verbs	179
Writing compound words.....	179

Abbreviation	179
Clipping	179
Acronyms.....	180
Initials	181
Blends	181
Back-formation	182
Loan words and new words	182
Loan words.....	182
New words.....	182
APPENDIX 3	183
NOUN COMPOUNDS.....	183
Introduction.....	183
When should noun compounds be avoided.....	185
Excessive pre-modification.....	185
Problematic use of nouns as pre-modifiers	186
Lack of explicitness of pre-modifying nouns	187
Confusion between pre-modifying nouns and the complements of prepositions.....	188
Confusion between a pre-modifying noun and the direct object of a transitive verb	189
Confusion between pre-modifying nouns and the complement of incomplete verbs.....	190

PREFACE

This textbook is primarily intended for the students of the Faculty of Electrical Engineering, University of East Sarajevo, as a primary teaching material for the subject English Language 1. The English Language 1 course is oriented towards the students who have already been learning English as the first foreign language during the primary and secondary education, and whose knowledge of English is at Intermediate or Upper-Intermediate level (B1 or B2). The students attend the lessons in this subject during the first semester of the first year of study, at all study programs. However, due to the content, this textbook can certainly be used in teaching English at other related faculties of technical orientation.

The textbook consists of fifteen teaching units, which, on the one hand, deal with various topics in the field of electrical engineering, presented in the form of texts and appropriate exercises that accompany them, while, on the other hand, consider the key areas of English grammar.

The texts in the textbook are authentic, written by native speakers and, if necessary, adapted and edited to suit the teaching needs, goals and purposes. The areas they cover range from the basic and general principles and laws of electrical engineering, through more specific and focused topics in this area to the consideration of modern technological achievements and current events. Each of the texts is accompanied by appropriate exercises. In the exercises, in addition to questions conceived and directed so that, through them, it is easier to understand the texts, both as a whole and by highlighting their most important elements and parts, the emphasis is primarily on the adoption and development of the vocabulary in electrical engineering, understanding of linguistic structures which characterise the discourse of electrical engineering (with special emphasis on noun compounds), identification of certain sentence patterns that occur in texts in the field of electrical engineering, and development of the ability to create longer and shorter textual units on relevant topics.

Regarding the grammar topics that are covered in the textbook, they primarily belong to the field of morphology, entering into the field of syntax only to the extent necessary for successful understanding, mastering and adoption of a particular teaching unit.

There are three appendices at the end of the textbook. The first of these is a list of irregular verbs, the second is devoted to the word formation in the English language, while the third deals with noun compounds.

PREDGOVOR

Ovaj udžbenik namijenjen je prvenstveno studentima Elektrotehničkog fakulteta Univerziteta u Istočnom Sarajevu, kao osnovno nastavno sredstvo za predmet Engleski jezik 1. Kurs iz Engleskog jezika 1 usmjerjen je na studente koji su već učili engleski jezik kao prvi strani jezik tokom osnovnog i srednjeg obrazovanja i čije poznавanje engleskog jezika je na nivoima B1 ili B2, odnosno Intermediate (srednji) ili Upper-Intermediate (viši srednji). Studenti pohađaju nastavu iz ovog predmeta tokom prvog semestra prve godine studija, na svim studijskim programima. Međutim, zahvaljujući sadržaju, ovaj udžbenik svoju upotrebu sasvim sigurno može naći i u nastavi engleskog jezika na drugim srodnim fakultetima tehničke orientacije.

Udžbenik se sastoji od petnaest nastavnih jedinica, u okviru kojih se, s jedne strane, obrađuju različite teme iz oblasti elektrotehnike, predstavljene u formi tekstova i odgovarajućih vježbanja koja ih prate, dok se, s druge strane, razmatraju ključne oblasti gramatike engleskog jezika.

Tekstovi koji se nalaze u udžbeniku su autentični, pisani od strane izvornih govornika i, po potrebi, adaptirani i uređeni tako da odgovaraju nastavnim potrebama, ciljevima i namjenama. Oblasti koje obuhvataju kreću se u rasponu od osnovnih i načelnih postavki i zakonitosti elektrotehnike, preko specifičnijih i usmjerenijih tema iz ove oblasti do razmatranja savremenih tehnoloških postignuća i aktuelnosti. Svaki od tekstova prate odgovarajuća vježbanja. U vježbanjima se, osim pitanja koncipiranih i usmjerenih tako da se, kroz njih, olakšava razumijevanje tekstova, kako u cjelini, tako i kroz naglašavanje njihovih najbitnijih elemenata i dijelova, akcenat primarno stavlja na usvajanje, razvijanje i utvrđivanje vokabulara iz oblasti elektrotehnike, razumijevanje jezičkih struktura karakterističnih za diskurs elektrotehnike (sa posebnim naglaskom na imeničkim složenicama), identifikovanje određenih rečeničnih obrazaca koji su prisutni u tekstovima iz oblasti elektrotehnike, te razvijanje sposobnosti kreiranja dužih i kraćih tekstualnih cjelina na relevantne teme.

Što se tiče oblasti gramatike koje se obrađuju u udžbeniku, one su primarno iz oblasti morfologije, ograničeno zalazeći u područje sintakse samo u onoj mjeri u kojoj je to neophodno za uspješno razumijevanje, savladavanje i usvajanje određene nastavne jedinice.

Na kraju udžbenika nalaze se tri dodatka. U prvom od njih je lista nepravilnih glagola, drugi je posvećen tvorbi riječi u engleskom jeziku, dok se treći bavi imenskim složenicama.
